Re: Proposed 10-year Plan by Mr. DeJoy

Dear Commissioners,

It has come to our attention that U.S. Postmaster General Louis DeJoy will be presenting his suggestion to you, the members of the U.S. Postal Regulatory Commission proposing a 10-year plan to overhaul the U.S. Postal Service. His proposed plan, in our opinion, will wreak additional havoc on the delivery of mail to the millions of citizens in these United States and benefit him. As you are aware, the changes he made shortly after being recommended and subsequently appointed as postmaster general in 2020 nearly destroyed the timely delivery of mail and needed medications to the disabled. Further, at his order, billions of dollars in very new mail sorting machines were removed and dumped outdoors, mailboxes were pulled from the streets and letter carriers were denied extended hours/overtime pay to ensure mail was received on time.

We were not supposed to be living under a dictatorship but from 2017 through January 20, 2021, it appeared that way and many are continuing to do everything in their power to see it come to fruition. Please vote against Mr. DeJoy's plan.

We would appreciate an official response (not a form letter please) indicating this correspondence has been received, read and will be taken into consideration.

Blessings,

Lee & Paulette Allen
